Sent ballots to: diwanowicz@usgs.gov

Ballots due July 23

ISAAH REMINDER - <http://aquaticpath.epi.ufl.edu/isaah6>

Are you attending this Sixth International Symposium on Aquatic Animal Health in Tampa, September 5-9? This is the time to act. Call for abstracts and regular registration remain open through July 15th, and there are still rooms available at the symposium hotel with specially-negotiated conference rates. Again, this ISAAH hosts this year's annual Fish Health Section meeting, with a whole lot more offering a global aquatic animal health perspective!

View the symposium website (<http://aquaticpath.epi.ufl.edu/isaah6>) for details. There are new workshops and educational excursions being offered, including swimming with manatees at the beautiful Crystal River National Wildlife Refuge! Also, there are still Snieszko Student Travel Awards available for student registrants. These awards also provide free one year membership to FHS for those who are not already members (i.e., spread the word).

Attention Students Attending the 6th International Symposium on Aquatic Animal Health

If you are in need of a roommate for your hotel costs, please become a friend to the AFS/FHS Students Facebook page and post on the wall! Make sure to let everyone know if you're male or female and how many roommates you would like.

With that, please utilize the facebook page. This is an open forum to discuss problems, accomplishments, or just letting off some steam. It's also an excellent way to get to know each other, even for future collaborations!!

So utilize the AFS/FHS Students Facebook page and start posting!!

1355-10 Fish Hlth Spec.doc**

Washington Department of Fish and Wildlife

FISH CULTURIST POSITION

Idaho Department of Fish and Game

Ahsahka, Idaho

Open competitive announcement until June 25, 2010. The announcement is located at the following link:

https://labor.idaho.gov/DHR/ATS/StateJobs/jobannouncement.aspx?announcement_no=00810057594

Applications will only be accepted through this website.

POSTDOCTORAL FELLOWSHIP IN OYSTER MARKER DEVELOPMENT AT URI.

The University of Rhode Island (www.uri.edu) is seeking a postdoctoral fellow to participate in a cooperative project with the USDA Agricultural Research Service and the East Coast Shellfish Breeding Consortium. The project involves the use of high-throughput sequencing to identify single nucleotide polymorphisms (SNP) in Eastern oysters. SNP markers are a critical resource for efforts to enable quantitative trait locus mapping and marker-assisted selection in this species. The fellow will be a member of DIMO (<http://cels.uri.edu/dimo>), an interdisciplinary team of researchers and students studying Diseases of Marine Organisms.

Applicants must have a PhD in biology, molecular biology, genetics, bioinformatics, or related fields. Experience in the analysis of high-throughput sequencing data and genetic marker development and validation is preferred, as well as experience in shellfish biology. Applicants should also have excellent communication skills and be able to work in a team environment.

This is an 18 month position at a competitive salary. Applications should be submitted in the form of a cover letter and resume emailed to gomezchi@uri.edu, and should include the contact information of three people willing to act as referees. Application evaluation starts June 15th and will continue until the position is filled.

For further information or to submit an application please contact: Dr. Marta Gómez-Chiarri, University of Rhode Island, 169 CBLS, 120 Flagg Road, Kingston, RI 02835, USA. Telephone: +1-401-874-2917, email: gomezchi@uri.edu

RESOURCES

PUBLIC COMMENT PERIOD FOR VETERINARY FEED DIRECTIVE (VFD) – see attached [Boilerplate for VFD comments.doc](#)

Your help is needed. The public comment period for Veterinary Feed Directive (VFD) Regulations closes on June 28. A "boiler plate" of comments is attached. Please sign and send to FDA. The more comments FDA receives regarding VFD regulations, the more seriously they will consider changing the regulations to improve the efficiency of using VFD drugs in aquaculture. Please be aware that you might not be able to sign your name as an affiliate to your agency/university/place of employment without sending the document up the chain-of-command for review and approval. If that is the case, please sign the document as an individual without including your employment affiliation.

Thanks in advance for your help,
Jim Bowker
